Primary Examiner

Art Unit: 1711

Continuation of 3.: Applicants' proposed amendment sets forth claim limitations not previously claimed that would require further search and/or consideration.

Continuation of 11.: Despite applicants' arguments, the position is maintained that the examiner has set forth a proper prima facie case of obviousness, and the position is further taken that applicants have neither established why it would not have been obvious to combine the teachings of the references as set forth nor adequately rebutted the prima facie case of obviousness by such means as a showing of unexpected results.
